

Vegas Pro Production Assistant

Automation and productivity tools for broadcasters and editors

Designed exclusively as a companion product for Vegas Pro software

The Vegas Pro Production Assistant plug-in extends the functionality of Vegas Pro software, streamlining the workflow for professional broadcasters and editors. The Production Assistant plug-in automates many common tasks and processes to save hours of tedious editing work. And the Production Assistant is easy to use—it includes a complete set of video tutorials on how to take advantage of the new features to get maximum output with minimum effort.

TOP NEW FEATURES

- Montage tool to quickly build photo and video montages
- Motion tool to automate the track motion of multiple streams of video
- Lower Thirds tool to automate the generation and placement of animated lower thirds
- Channel split to separate multichannel audio into multiple mono tracks
- Image Overlay to automate placement and display interval of bugs, logos and watermarks
- Widescreen converter to control how 4:3/16:9 mixed media are displayed
- Broadcast Color Process to automatically correct common lighting problems
- 13 Video tutorials to help you get up to speed quickly

CONTENTS

- Vegas™ Pro Production Assistant software
